STATEMENT OF REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: No prior art was found that anticipates nor renders obvious the claimed subject matter of the instant application as a whole either taken alone or in combination. In particular, the prior art of record does not teach a device including a first metal oxide layer containing at least two metals, on a substrate; a first electrode on one surface of the first metal oxide layer; a second electrode on another surface of the first metal oxide layer; and an insulating layer in contact with at least one of the one surface and said another surface of the first metal oxide layer, wherein the insulating layer is between the first metal oxide layer and one of the first and second electrodes; a second metal oxide layer made of the same metal oxide, on the same substrate, and a fourth electrode on the second metal oxide layer, wherein the first electrode, first metal oxide layer, second metal oxide layer, and fourth electrode are connected in series as claimed. It would not have been obvious to one having ordinary skill in the art at the time the invention was made to do so. No prior art was found that taught this novel device.
2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
